## **About the Artist**

Joseph's passion with photography became an obsession when a friend of his invited him to his darkroom to develop and print some photographs that he had recently taken. He became so fascinated with the outcome and wasted no time to go out and purchase his very first camera. Joseph's part time passion soon became his full time career.

Graduated from the School of Modern Photography in Little Falls, New Jersey in the USA and earned his diploma in professional photography. To further his studies, he enrolled at The Ontario College of Arts and completed his studies in visual communication.

Joseph spent countless hours experimenting with artistic feelings and pushing the limit of his craft. His forte combines both a methodology and a mastery of his own specialized high-key lighting technique. The outcome is an evanescent image floating in space and suspended in time. The gracefulness of the body suggests a continuation of that photographic instant in which the subject is caught either in her contemplative mood, or expressing her lightness of

being, as in the art prints of his ballet images.

Inspired to capture the moment and magically transform his mastery of his high key lighting technique and unique style into the beauty and movement of dance into the extraordinary work of art that has become so instantly recognizable as his own personal style.

Throughout Joseph's career, his works of art have been published in countless magazines and book covers, posters, calendars, advertisements, and major ad campaigns. His historical images of Prima Ballerina Karen Kain of the National Ballet of Canada has received several awards.

Joseph has exhibited in numerous galleries and his art images grace the walls of private collectors. He has also donated art prints to The National Archives of Canada and to the National Ballet of Canada.

Statistics Canada has published their collector's quality edition book called "Canada A Portrait" which features Joseph's artwork.
